No biggie. Thanks you guys. I just had a meeting with Running Grass and I understand he will be coming to Alaska at the end of the month and intends to reach out to NVT about a potential meeting while he is up there. Stay tuned as he will be reaching out to you guys shortly. Take care.

Hello Jamey

My sincere apology. It was entirely my oversight for forgetting to cc you when I forwarded the letter.

I recognize that it is very important to include you when forwarding such correspondence.

I am sorry for any additional work that my oversight may have caused.

Thank you for all of your hard work.

Sincerely

Rob

Hi Rob and Heather-

I hope this email finds you both well. Thank you for the letter to our EJ coordinator Running Grass re: Chuitna. I am pleased you have reached out to such a valuable resource at R10. I had recently asked Running Grass to serve on our review team for the SEIS, so your letter is very timely.

If at all possible, it would be great if you guys could cc: me on any and all official/letterhead correspondence to EPA management/staff. I just learned of the letter yesterday through several colleagues/management, and upon looking at the email chain it appears the letter was sent to nearly everyone in the Region aside from me, which is unfortunate because as the project manager for the Region is puts me in a bad position to be in the dark about things like this and being forwarded such correspondence from management. It also creates additional work for everyone to try and track down who has it, who needs it, and how to coordinate a response, when we are all trying to gear up and get the review team ready for the preliminary draft.

Not a big deal, but after working with you both on this project for the last several years I would appreciate the professional courtesy of being cc'd on official correspondence, particularly when it is sent to such a large group of EPA folks and my role has been clear since I began working on this project nearly 6 years ago.

Thank you both in advance for your future attention to this matter and feel free to call me anytime.
